

Why Oscar Furniture?

Oscar have decades of experience in manufacturing furniture.

Anthony Op de Coul built the business with his father Leo and carries on a proud family tradition of quality without compromise.

Australian Made

All Vertical Lift Chairs are made in the Oscar Furniture factory, in Horsham, Victoria. The skilled staffs at Oscar's have more than 30 years experience manufacturing the very best quality lift chairs.

Lay flat with removed arm

Seated position with arm removed for transfer

Elevate the feet to reduce pressure on the lower back

Elevated seat for assisted sitting and standing

Three or four action motor control

As standard the vertical lift is fitted with a quality Linak three motor control system that can independently operate the footrest, backrest and vertical lift motion. As an optional extra a fourth function of either forward or backwards tilt can be added, this motion can also operate independently of the three other motions.

Backrest: Full range of motion including lay flat

Footrest: Independent operation, extends while raising

Vertical lift: lifts seat straight up (not tilt), 780mm at maximum height

Forward tilt (optional): can tilt forward for improving assisted sitting and standing

Backwards tilt (optional): tilt in space backwards for Trendelenburg

Choose from two backrest designs:

Three Roll Backrest (Standard)

Top two rolls are filled with a fibrous filling that has a wonderful soft feel.

Bottom roll is a supportive foam

The ultimate in softness and luxury.

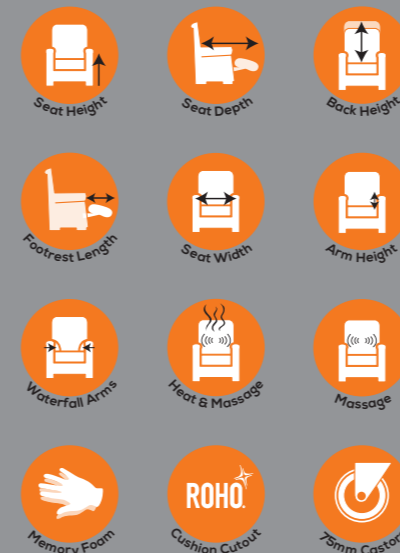

Two Roll Backrest

Hudson is available with the classic 'Brumby' style double large roll back on request.

Especially suits people recovering from back surgery or general lower back pain.

Customise your chair

Vertical Lift Chair shown in special order in Oscar Vinyl Charcoal with optional castor wheel kit

Personalise the chair to suit your needs

For example, this chair has been personalised with backrest, seat and footrest shaping, including extending the footrests with stirrups.

It has also been fitted with backwards tilt, offering a more secure seating position for the client.

Carers may find that forward or backward tilt offers extra peace of mind while administering to the client.

Vertical Lift Chair
Specifically designed for high-care clients up to 170kg

Sizing: Individually built to suit each client

Why choose the Vertical Lift Chair?

The Vertical Lift chair is an excellent choice for clients who need a high level of care.

It has a high 780mm of lift, can recline flat with removable or fold-away arms that assist in side transfer.

For greater client security, backwards or forwards tilt can also be added.

All seat, backrest and footrest pads can be shaped to suit the client.
